Osler Works – Disputes

Ali Manbachi a Senior eDiscovery Case Manager, is a member of Osler Works – Disputes. Ali is responsible for managing eDiscovery projects from collection to production including monitoring work flow, project planning and scoping, and performing data analysis. Ali provides technical management in all stages of the discovery process. From collection to production, Ali uses his technical acumen and project management skills to ensure Osler's clients' data is gathered, processed, reviewed and produced in both a cost-efficient and defensible manner. Ali has deep expertise in Relativity including the analytics and AI based assisted reviews offered by the program. Ali continuously devises technical solutions to help improve the firm's relativity platform.
