Carmen Bruni is a member of Osler's Legal Operations team focused on the operationalizing of AI initiatives across the firm. As a lawyer, she uses her knowledge of legal process, and an understanding of practice needs to design tailored AI training programs for the firm and coordinate with practice group chairs to integrate AI into their workflows.

Prior to joining Osler, Carmen practiced corporate law both in-house at a market leading financial institution and in private practice as part of the alternative legal services team of a major law firm.
