

Ethan McCarthy

Partner, Construction

Toronto

(416) 862-6752

emccarthy@osler.com

Bar Admission: Ontario, 2015

Areas of Expertise

- Nuclear Energy
- Government and Public Sector
- Renewable Energy
- Power and Utilities
- Energy
- Infrastructure
- Construction
- Procurement

The key focus of Ethan’s practice is front-end solicitor work for the procurement, design, engineering, construction and administration of a broad range of energy, commercial and industrial construction and infrastructure projects, including overall project structuring and preparation and negotiation of contracts and related procurement documents required to successfully deliver these projects.

In his time at Osler Ethan has worked on a number of high-profile construction, infrastructure and energy matters. He has been involved in various facets including project development, financing, procurement, contract negotiation and contract administration issues.

Ethan is a civil engineer by trade, and prior to entering the legal profession he worked for a number of years in Washington, DC, in the field of construction project management and green building. His diversity of experience means Ethan possesses a unique understanding of the impact of construction related issues on the business operations of his clients.
