Areas of Expertise

Nuclear Energy

Telecom

Intellectual Property

Louis is a registered Patent Agent in both Canada and the United States.

Drawing on extensive experience, he assesses new technologies, prepares and prosecutes patent applications domestically and internationally, and counsels emerging and high-growth clients on strategic portfolio development and management to safeguard their intellectual property. His work emphasizes patent protection for inventions related to telecommunications, energy technologies (including nuclear and solar), photovoltaic materials, mechanical devices, manufacturing equipment, and electronics, complemented by significant experience in software-based inventions.
