Areas of Expertise

Osler Works – Disputes

Corporate and Commercial Disputes

Nathalie is experienced in litigation, evidence management and eDiscovery where she specializes in the review and analysis of documentation and data. Nathalie also has experience in training reviewers as well as performing project management and quality control review on in-house and outsourced legal reviews. Nathalie is well versed in the usage of litigation review software and the analytics these programs offer. Based in the Montréal office, she provides firm-wide support in building documentary evidence in support of high-profile litigation cases.
