Outsourcing

Zain provides strategic counsel to enterprises that rely on technology and complex services, and he also advises technology suppliers ranging from established software and hardware providers to emerging and high growth companies.

Zain specializes in outsourcings and other complex commercial transactions for clients across a broad range of industries, including fintech, healthcare, energy, transportation and logistics, insurance, real estate, and software development. Zain regularly supports clients in drafting and negotiating commercial agreements, including software-as-a-service agreements, software development agreements, master services agreements, data sharing agreements, and license agreements. A large part of Zain's practice focuses on providing strategic legal advice to assist emerging and high growth companies in the development and commercialization of their technology.

Zain routinely provides regulatory guidance to clients in the areas of drones and autonomous vehicles.
