**British Columbia**

In December 2015, the federal government released the Pan-Canadian Framework on Clean Growth and Climate Change, which introduced carbon pricing initiatives in effect by 2018. The targets are relative to 2013 levels and build on Québec’s own programs will be subject to the federal government’s mandatory pricing system.

**Alberta**

**Saskatchewan**

In November 2015, Saskatchewan announced that it will implement a cap and trade market initiative. Saskatchewan is also in the process of establishing a cap and trade market system to address carbon emissions from industry.

**Ontario**

In April 2016, the Government of Ontario released its 2030 Energy Policy. The policy sets the following targets for 2030:

- 40% of its energy acquired within the province of renewable sources by 2020.
- 25% of its energy acquired within the province of renewable sources by 2025.
- 40% of its energy acquired within the province of renewable sources by 2030.

In December 2017, the province introduced legislation adapting the federal government’s intensity targets for large industrial emitters.

**Quebec**

In November 2016, Nova Scotia announced that it will implement a cap and trade market system to address carbon emissions from industry.

**New Brunswick**

In November 2016, Nova Scotia announced that it will implement a cap and trade market system.

**Prince Edward Island**

In November 2016, Nova Scotia announced that it will implement a cap and trade market system.

**Newfoundland and Labrador**

In December 2016, the federal government released the Pan-Canadian Framework on Clean Growth and Climate Change, which introduced carbon pricing initiatives in effect by 2018. The targets are relative to 2013 levels and build on Québec’s own programs will be subject to the federal government’s mandatory pricing system.

**Federal**

In December 2016, the federal government released the Pan-Canadian Framework on Clean Growth and Climate Change, which introduced carbon pricing initiatives in effect by 2018. The targets are relative to 2013 levels and build on Québec’s own programs will be subject to the federal government’s mandatory pricing system.

Jurisdictions that fail to establish their own programs will be subject to the federal government’s mandatory pricing system.
